 **novakbirch** We're riding a wave of excitement as we continue gearing up for the U.S. Travel Association's IPW. This week's sneak peek is from one of our newest clients, New Jersey Division of Travel & Tourism. Our design team took inspiration from their logo, which features a green mountain and a blue wave, to bring texture and dimension into their booth design. 🌊🏔️🇺🇸

 **novakbirch** [#fbf](#) to yesterday's Lunch & Learn where our talented shop team taught us about all the capabilities of NB's CNC machine. This powerful tool allows us to create dimensional letters and logos, 3D shapes, carved patterns, maps, plaques, and so much more. Having the right equipment on-site lets our creative team flourish.

"I had a couple of dollars, but it wasn't enough to really sustain me. I don't have any family here. I didn't really know what to expect, but the shelter was a place to help me out. When I exited, I had everything that I needed—all of the certifications that I needed to get back on my feet. I used the resources that were there, and I made the best of the opportunity. I met some great people." -Robert

Today, Robert owns his own business and returns to the shelter to volunteer. Thousands of others like Robert visit our homeless shelters throughout Baltimore County in search of a second chance. We give them the guidance and resources to get back on their feet.

We love hearing from people like Eleanor about how CAN staff members are kind, helpful, always smiling, and not judging anyone who comes to our door looking for help.

[#TestimonialTuesday](#)

**"I'm a 77 year old disabled woman. Thank God for CAN. I care for myself with a small social security check. Even with subsidized rent, it barely covers my needs."**

*– Eleanor*
